

AS012S ACCURATE SAFETY CORNER FAN NET FOR SCAFFOLDING® 6m x 3.1m

The **Accurate Safety Corner Fan Net®** is a version of the **Accurate Safety Net®**. This type of fan is only to be used for material catching.

The **Accurate Safety Corner Fan Net®** extends 3.1m out from the facade, and can be installed onto concrete or scaffolding.

It folds up against the facade for easy crane access as a safety precaution during bad weather.
